Collecting Notes

1. The "MONMOUTH COUNCIL" KRHS and RWHS are rare, which suggests that they may have only been issued to the professional staff or to a Jamboree contingent.
2. Various Girl Scout patches exist which might be mistaken for MCBSA's, including a MONMOUTH COUNCIL half strip on dark green twill.
3. MONMOUTH community strips are known to exist. These are from other states.
4. See the Jamboree and Philmont sections for the patches associated with those programs.

Research Questions

1. What was the significance of the 2 different colors of FORESTBURG and GOOD TURN rockers? Are the FSR ones for Central vs. Dan Beard? Or Cub vs. Scout?
2. Was the N/C with commissioner-like logo used by the commissioners?

HOW CSP'S ARE IDENTIFIED

Each CSP is identified by a series of letters and numbers. A typical listing might look as follows:

[X] T-01b TLR SS LT. BLUE BKG. PB 'A' \$3

[X] S-02 BSA SS 86MM NAME PB 'A' \$2

The "T" or "S" signifies whether the CSP has a twill ("T") background, or a solid ("S") background. If the patch has a twill background, the twill direction is indicated, such as twill left rough ("TLR"), no twill ("NT"), twill right smooth ("TRS"), and so on. A full description of the various abbreviations used in the Blue Book follows this section.

The number ("-01") indicates the issue number as generally recognized in the various trade publications. A letter following an issue number ("-01b") indicates a generally recognized variety of the issue. Where the same issue is repeated without a new issue number or letter, a minor variety is being recognized.

The letters "BSA", "SS", or "FDL" designate the presence of these symbols on the patch, and conformity of the patch to National standards. The difference between a Scout sign ("SS") and a fleur de lis ("FDL") is simple - the SS has a bar on it, a FDL does not.

If there is any necessary descriptive information to distinguish the variety identified from other similar varieties, that descriptive information is then set forth. For instance, if one patch has a light background when compared to another, the two will be identified as "LT. BKG." and "DK. BKG.".

Next, the presence of a plastic back on the patch is indicated by the abbreviation "PB". The absence of the abbreviation means that the CSP has a cloth back. No attempt is made to distinguish between the various types of plastic backs used, such as "waffle backs", "smooth plastic backs", or other apparent differences.

the shape chart circulated by National in 1970 to encourage councils to adopt CSP's in one of three approved shapes. The three shapes were demonstrated by the three samples sent to each of the then 450 Councils. The Circle Ten sample demonstrated shape "A", Columbiana-Johnny Appleseed demonstrated shape "B", and Paul Bunyan demonstrated shape "C".

Collecting Notes

1. The districts were originally named for the main town or area (Red Bank, Sandy Hook Bay, etc.), then they were given numbers, and then they were given names.
2. Other councils have districts named Central, Southern, Great Northern, Thunderbird, and perhaps Battleground. Therefore a patch bearing one of these district names, but without the

Collecting Notes

1. Monmouth Council has sent a contingent to every National Jamboree; the 1937 contingent represented Monmouth-Ocean Council #347.
2. The IDs above are those from Hice's numbering system.

Research Questions

1. Determine the 1935 Jamboree troop number.
2. Determine how the ORG/BLK N/C was used.

Collecting Notes

1. Issues are numbered using Blue Book V numbering system.
 2. Several non-Scout medals were made for local commemorations of the Battle of Monmouth anniversaries. The 150th (1928) anniversary medal was announced to be the model for the Battle of Monmouth Historic Trail, but a simpler design was actually used.
 3. Other postal covers exist to commemorate the Battle of Monmouth, but only the OA ones are listed here. T.136 also issued a cover for the 200th anniversary.
 4. The Carlisle Historical Trail in Pennsylvania commemorates Molly Pitcher's grave site.
 5. The following corrections should be made in Blue Book V under Lodge 71 Na-Tsi-Hi:
 - Change council location to Morganville, NJ
 - Renumber F6 to F5a - a variety at best, not an issue
 - Add F5b - darker GRN letters, WWW slightly misaligned below other letters
 - Can we confirm S1c?
 - Change X4a - add HS, change size to 76 x 100 mm
 - Change X4c - change size to 77 x 102 mm
 - Add X4d - LYL name, 78 x 99 mm, HS
 - Change R3 - correct size is 76 mm
- Add X10, S23, S24, S25, X11, S26
- Remove N.5 entirely**, or renumber N.5 to YN.5 - no evidence that the item is from the lodge, and on its face does not seem to be a lodge piece
- Add varieties N2a & N2b - N2a is traditional Chief Neckerchief embroidery, whereas lettering on N2b is tighter
- Renumber eR1992-2 to eR1993 - I believe this is the 1993 patch mis-listed. Also correct name color to BLK
- Renumber eX1992-1 to eX1992 - due to previous change.
- Delete eR1993 - replaced by eR1992-2 entry
- Renumber eR1996-2 to eX1996-2 - patch is not a round
- Add eX1998-3 - GMY R border, WHT twill background, BLK name, BLK fdl, PB, rounded rectangle, Spring Pow Wow
- Add eX2003-1 - ORG C border, BLK background, RED name, BLK fdl, PB, chevron, button loop, "WIMACHTENDIENK U"
- Renumber eX2003 to eX2003-2
- Add eX2003-3 - BLK R border, GRN background, BLK name, RED fdl, square, Fall Pow Wow
- Add eX2004 - ORG C border, BLK background, no name, no fdl/bsa, PB, odd shape, "MASTER'S BROTHERHOOD"
- Delete eX19xx - it is a duplicate of eX1987-1
- Add eX2005 - ORG C border, BLK background, no name, no fdl/bsa, PB, odd shape, "PhD SERVICE"
- Remove all pins in Totem Pin section - there are no known totem pins for Na-Tsi-Hi 71

Research Questions

1. Did the two different colors of the 1973 conclave N/Cs designate delegate vs. staff? Which was the staff N/C?

Collecting Notes

1. Several other Boy Scout camps around the country were named "Burton". At least one of them has issued patches.
2. Only camps for which memorabilia exists are listed. See *Images of America: Monmouth Council Boy Scouts* for a more complete list of MCBSA camps.
3. Neckerchiefs exist bearing the 1959 FSR patch. These are tentatively identified as Jamboree contingent items, and are listed under the Jamboree tab.

Collecting Notes

1. The colors of a community strip reflect the era it was used and the BSA program it was used for:

Tan cloth / Red letters	1938-1945
Khaki cloth / Red letters	1946-1953
Blue cloth / Yellow-Gold letters - Cub Scouts	early '40s-1953
Green cloth / Brown letters - Explorer Scouts	1947-1953
White cloth / Blue letters - Sea Scouts / Explorers	1939-1953
Blue felt / White letters - Sea Scouts / Explorers	1939-1953
Lt. Blue cloth / Dk. Blue letters - Air Scouts / Explorers	1942-1953
Red cloth / White letters	1952-1978
2. Ocean County was affiliated with Monmouth Council only until the Tan/Red community strip era.
3. Question marks indicate a patch is suspected to exist, but has not been confirmed.

Research Notes

1. NAD Earle was renamed NWS Earle in 1974. The BSA unit(s) there used the COLTS NECK strip and may have had a NAD EARLE strip.
